#### **Hotels and Serviced Apartments Revenue**

Although travel restrictions continued to impact on the tourism and hospitality industries during the Period, the Group's revenue base was widened after the Acquisition on 28 May 2021, which resulted in the hotels and serviced apartments revenue for the Period increasing by 76.3% to HK\$73.7 million (2020: hotel revenue of HK\$41.8 million), accounting for 33.0% (2020: 45.0%) of the Group's total revenue. Total food and beverage revenue was HK\$38.1 million (2020: HK\$18.7 million), while the rental income and other revenue totalled HK\$11.0 million (2020: HK\$7.9 million).

#### **OUTLOOK**

With the expansion of the middle-income group in mainland China, more comprehensive transportation linkages, plus further integration into the Greater Bay Area, Macau's position as a global leisure and tourism hub will be reinforced, as well as Hong Kong's position as a popular shopping destination and international finance centre. These will benefit the entertainment and hospitality services sectors in Macau and Hong Kong, given that travellers invariably include both cities in a single itinerary, due to their close proximity while having distinct characteristics yet complementary positioning. With the Group now strategically owning several hotels and serviced apartments in Hong Kong and Macau, it will be able to adopt a comprehensive marketing strategy for its hospitality business as a whole, and deliver unparalleled services to travellers visiting both these cities.

Amid the uncertainties caused by Covid-19, the Group will continue to closely monitor the development of the pandemic situation and strictly adhere to all necessary safety measures in its hotels and serviced apartments. As soon as the travel restrictions and health quarantine measures across borders within the Greater Bay area are eased, the Group expects that visitation and spending will rebound afterwards, resulting in a boost to the tourism industry in Macau and Hong Kong altogether. The Group strives to stay competitive in the marketplace, and anticipates reaping the greatest possible benefits when the market revives.

#### FINANCIAL AND OTHER INFORMATION

#### Capital Structure, Liquidity and Financial Resources

During the Period, the Group utilised approximately HK\$2,048.8 million for the Acquisition, hence its aggregate of bank balances and cash, short-term bank deposits and pledged bank deposits decreased to HK\$1,166.3 million (31 March 2021: HK\$3,340.1 million) as at 30 September 2021, which is mainly denominated in Hong Kong dollar (31 March 2021: Hong Kong dollar and Renminbi). The Group continued to maintain a strong financial position and funded its operations and capital expenditure by cash generated from its operations and deposits reserved at the banks. During the Period, the Group was not exposed to significant foreign exchange rates as most of the Group's assets, liabilities and transactions were transacted at and denominated in the functional currency of its foreign operations.

The Group's current assets and current liabilities as at 30 September 2021 were HK\$1,260.3 million (31 March 2021: HK\$3,458.1 million) and HK\$371.0 million (31 March 2021: HK\$357.3 million), respectively. As at 30 September 2021, the advances from non-controlling interests of subsidiaries of the Company totalled HK\$39.5 million (31 March 2021: the advances from non-controlling interests of a subsidiary of HK\$39.0 million), which were denominated in Hong Kong dollar, unsecured and interest-free, among which HK\$39.0 million was repayable at the discretion of non-controlling interests and availability of surplus fund of a subsidiary, and the remaining HK\$0.5 million was repayable by another subsidiary after payment of all operating expenses and payables including but not limited to bank loans and third party loans which are due for repayment together with the accrued interest. The Group was in a net cash position as at 30 September 2021 and hence its gearing ratio (calculated as net debt divided by total equity plus net debt) was zero (31 March 2021: zero).

During the Period, the Company had repurchased 12,270,000 shares (the "**Repurchased Shares**") of its own shares from the market using internal resources, at an aggregate consideration of HK\$14.6 million, and an average price of HK\$1.187 per share. The Repurchased Shares had been cancelled during the Period, and hence the total number of issued shares of the Company right after its cancellation was reduced by about 1.0% to 1,197,305,983 (31 March 2021: 1,209,575,983) shares and its issued share capital was HK\$120,000 (31 March 2021: HK\$121,000) as at 30 September 2021. Having considered the Group's strong cash reserves, the Directors believe the share repurchases would enhance value to the Company's shareholders and benefit the Company and its shareholders as a whole.

#### **Pledge of Assets**

As at 30 September 2021, assets with carrying values of approximately HK\$2.0 billion (31 March 2021: HK\$2.0 billion) were pledged to two banks as security for banking facilities of a total of HK\$520.0 million (31 March 2021: HK\$520.0 million). The facilities remained undrawn and available as at 30 September 2021 and 31 March 2021. In addition, the Group has a bank deposit of HK\$64.1 million (31 March 2021: HK\$63.0 million) pledged as security deposit for obtaining a bank guarantee in the amount of approximately Macau Patacas 65.4 million (equivalent to HK\$62.6 million) in favour of SJM for the Group's fulfilment of all its obligations, as stipulated under the service agreement between the Group and SJM, and another bank deposit of HK\$0.4 million (31 March 2021: HK\$0.4 million) pledged as security deposit for the use of ferry ticket equipment provided by a third party.

#### **Acquisition of Subsidiaries**

On 28 May 2021, an indirect non-wholly owned subsidiary of the Company completed the acquisition of the entire equity interest of Poly Keen International Limited ("Poly Keen") and the loan due by Poly Keen to a direct wholly-owned subsidiary of Emperor International at a cash consideration of HK\$2,048.8 million, details of which were set out in the joint announcement of the Company and Emperor International dated 16 March 2021 and the Company's circular dated 30 April 2021.

Poly Keen and its subsidiaries (collectively referred to as "Poly Keen Group") are principally engaged in hospitality business and property investment in Hong Kong.

#### EMPLOYEES AND REMUNERATION POLICY

After the Acquisition, the Group's number of employees as at 30 September 2021 increased to 869 (31 March 2021: 770). Total staff costs including Directors' remuneration and the other staff costs for the Period were HK\$172.7 million (2020: HK\$154.1 million). Each employee's remuneration was determined in accordance with individual's responsibilities, competence and skills, experience and performance, as well as market pay levels. Staff benefits include medical and life insurance, retirement benefits and other competitive fringe benefits.

To provide incentive or reward to the staff, the Company has adopted a share option scheme, particulars of which will be set out in the section headed "Share Options" of the Company's interim report.

#### INTERIM DIVIDEND

The Board declares an interim dividend of HK\$0.015 per share ("Interim Dividend") (2020: HK\$0.015 per share) amounting to approximately HK\$18.0 million (2020: HK\$18.2 million). The Interim Dividend will be payable on 23 December 2021 (Thursday) to shareholders whose names appear on the register of members of the Company on 14 December 2021 (Tuesday).

#### NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 September 2021

#### 1. BASIS OF PREPARATION

The unaudited condensed consolidated financial statements have been prepared in accordance with the Hong Kong Accounting Standard 34 *Interim Financial Reporting* issued by The Hong Kong Institute of Certified Public Accountants ("**HKICPA**") and with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities (the "**Listing Rules**") on the Stock Exchange.

These condensed consolidated financial statements should be read in conjunction with the Group's annual financial statements for the year ended 31 March 2021.

#### 1A. SIGNIFICANT EVENTS AND TRANSACTION IN THE CURRENT INTERIM PERIOD

The ongoing Covid-19 pandemic and the corresponding quarantine measures as well as travel restrictions continued to have an adverse effect on the Group's operating results for the Period. However, it showed an improvement in comparison with the last corresponding period. Supported by a gradual recovery of the gaming market in Macau as result of the ease of Macau's entry requirements/quarantine measures and an improvement in entertainment and consumption sentiments, mainly among mainland China visitors, the gaming revenue of the Group increased apparently during the Period as compared to the last corresponding period. In addition, the completed Acquisition has enabled the Group to expand its business coverage and widen its income source beyond Macau to Hong Kong.

Despite the Group had utilised HK\$2,048,832,000 for the Acquisition, it maintained a strong cash position (including short-term bank deposits and bank balances and cash) in a total of HK\$1,101,767,000 and was in a net cash position with a zero gearing ratio (calculated as net debt divided by total equity plus net debt) as of 30 September 2021. Hence, the financial position of the Group remained stable.

At present, given the evolving conditions of and in response to the Covid-19 pandemic, including the appearance of Covid-19 variants, the Group is unable to foresee the change in travel restrictions which is subject to the development of the pandemic situation. Since the duration and future development of the Covid-19 pandemic are uncertain, the relevant financial implication to the Group may remain in the future results. The management will closely monitor the developments of the pandemic situation and continue to strictly control daily operational and capital expenditures as well as adjust the business strategies of the Group in order to mitigate any adverse impact that may happen in the future.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

The unaudited condensed consolidated financial statements have been prepared on the historical cost basis except for investment properties which are measured at fair values. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Other than changes in accounting policies resulting from application of amendments to Hong Kong Financial Reporting Standards ("HKFRSs") issued by the HKICPA and in respect of business combinations as a result of the Acquisition, the accounting policies and methods of computation used in the unaudited condensed consolidated financial statements for the Period are consistent with those presented in the preparation of the Group's annual financial statements for the year ended 31 March 2021.

#### Application of amendments to HKFRSs

In the Period, the Group has applied, the following amendments to HKFRSs issued by the HKICPA, for the first time, which are mandatorily effective for the annual period beginning on or after 1 April 2021 for the preparation of the Group's unaudited condensed consolidated financial statements:

Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16 Interest Rate Benchmark Reform - Phase 2

The application of the amendments to HKFRSs in the current period has had no material impact on the Group's financial positions and performance for the current and prior periods and/or on the disclosures set out in these condensed consolidated financial statements.

# Application of accounting policies in respect of business combinations *Business combinations*

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred. At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit
  arrangements are recognised and measured in accordance with HKAS 12 Income Taxes
  and HKAS 19 Employee Benefits respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 Share-based Payment at the acquisition date;

#### 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Application of accounting policies in respect of business combinations (Continued)

Business combinations (Continued)

- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS
   5 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that standard; and
- lease liabilities are recognised and measured at the present value of the remaining lease payments (as defined in HKFRS 16) as if the acquired leases were new leases at the acquisition date. Right-of-use assets are recognised and measured at the same amount as the relevant lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net amount of the identifiable assets acquired and the liabilities assumed as at acquisition date. If, after re-assessment, the net amount of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

When the consideration transferred by the Group in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively. Measurement period adjustments are adjustments that arise from additional information obtained during the "measurement period" (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

#### 4. SEGMENT INFORMATION

The executive Directors have been identified as the chief operating decision maker ("CODM"). The CODM review the Group's internal reporting in order to assess performance and allocate resources.

During the Period, the Group acquired the business engaging in hotel and hotel-related operations and lease of investment properties in Hong Kong by acquisition of Poly Keen Group (as detailed in note 12), and it is considered as a new operating and reporting segment by the CODM. In light of the businesses acquired during the Period, the Group reorganised its internal reporting structure which resulted in changes to the composition of its reporting segments by geographical operations, which are Macau operations and Hong Kong operations, respectively. The CODM are of the view that the revised presentation of the operating segment information better reflects the Group's operations and this is consistent with the internal information regularly reviewed by the CODM for the purposes of resources allocation and assessment of performance. Prior period segment disclosures have been represented to conform with the current period's presentation.

The Group's operating segments are classified as (i) Macau operations and (ii) Hong Kong operations. The details of the Group's operating segments are as follows:

- (i) Macau operations
- Operations in Macau derive revenues from gaming, hotel and leasing transactions: (a) gaming revenue from services rendered for mass market hall, VIP room and slot machine hall transactions and provision of gaming-related marketing and public relation services for Grand Emperor Hotel in Macau, (b) hotel revenue from sales or services rendered in Grand Emperor Hotel and Inn Hotel and (c) leasing revenue from investment properties in these hotels in Macau.
- (ii) Hong Kong operations
- Operations in Hong Kong derive revenues from hotel and leasing transactions: (a) hotel revenue from sales or services rendered in a hotel in Hong Kong and (b) leasing revenue from investment properties in the hotel and serviced apartments in Hong Kong.

The CODM assess the performance of individual operating and reportable segments based on a measure of adjusted loss before interest, tax, depreciation and amortisation, exchange gain (loss) at corporate level, gain on disposal of debt instruments at fair value through other comprehensive income ("FVTOCI") and fair value changes of investment properties (the "Adjusted LBITDA").
